Portfolio: https://vaishnavi-g04.github.io/My_Portfolio/

PROFESSIONAL SUMMARY

Adaptable and enthusiastic Engineering graduate seeking an entry-level position to contribute to development, testing, and data-driven solutions. Proactive learner with hands-on experience in Full Stack Development and Data Analytics, proficient in Python, JavaScript, and SQL. Strong analytical thinker with a proven track record of solving complex technical challenges in team environments.

EDUCATION

Bachelor of Engineering in Electronics and Communication

Adichunchanagiri Institute of Technology, Chikkamagaluru, Karnataka | 2022 – 2026

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML5, CSS3

Frontend Development: HTML, CSS, JavaScript, DOM Manipulation, Event Handling, Responsive Design, Basic Angular

Backend Development: Django, Flask, REST APIs, API Integration, Authentication, CRUD Operations[basics]

Database & Data Analysis: MySQL, SQL Queries, Data Validation, Data Accuracy, MS Excel, PowerPoint

Testing & Debugging: Manual Testing, Functional Testing, Usability Testing, Postman, API Testing, Debugging, Bug Tracking

Tools & Platforms: Visual Studio Code, Git, GitHub, JIRA, ModelSim, Quartus Prime, Agile Methodology, SDLC

Concepts: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Data Structures, Algorithms, Problem Solving

PROFESSIONAL EXPERIENCE

Python Full Stack Developer | Dhee Coding Lab

Bengaluru | Feb 2026 – May 2026t

- Developed and deployed full-stack web applications using Python, Django, HTML, CSS, and JavaScript
- Designed and implemented REST APIs for seamless frontend-backend communication and data exchange
- Built and managed MySQL databases with optimized SQL queries for efficient data retrieval and storage
- Conducted comprehensive manual testing including functional testing, usability testing, and CRUD operation validation
- Performed API testing and validation using Postman to ensure endpoint reliability and response accuracy
- Debugged frontend and backend issues, improving application performance and user experience
- Collaborated in an Agile development environment, participating in sprint planning and code reviews

RTL Design Engineer | Maven Silicon

Bengaluru | April 2025 – May 2025

- Verified RTL design functionality using simulation tools and validated AHB to APB bridge architecture

- Identified and resolved logical errors in Finite State Machine (FSM) implementation through systematic debugging
- Utilized ModelSim for comprehensive validation, testing, and output verification of digital designs
- Documented test results and debugging processes to support design optimization and quality assurance

Embedded Systems Developer | Loginware Software Pvt. Ltd.

Bengaluru | Nov 2024

- Verified input/output operations and peripheral behavior for microcontroller-based embedded applications
- Analyzed system performance metrics and identified errors to enhance operational efficiency
- Developed microcontroller-based applications integrating multiple peripherals for real-time functionality

PROJECT

MedVision AI – Medical Assistant Platform

Architected and explored a full-stack medical assistant platform leveraging React frontend and FastAPI backend. Implemented REST APIs, user authentication, and database integration. Developed features including image upload processing, automated report generation, and chatbot integration for patient assistance.

FPGA Based Hardware Trojan Detection

Engineered a real-time power profiling system to detect hardware trojans in FPGA circuits. Analyzed abnormal power consumption patterns and implemented detection algorithms for identifying malicious circuit modifications.

Login & Signup Authentication System

Built a secure user authentication system using HTML, CSS, and JavaScript with form validation and input sanitization. Implemented local storage-based session management and practiced DOM manipulation with event-driven programming.

CERTIFICATIONS

- Fundamentals of Python – Great Learning, Oct 2024
- Data Analytics Job Simulation – May 7th, 2026
- Microsoft Excel (Basic to Intermediate) – Great Learning, Oct 2024
- RTL Design Internship (VLSI Design) – Maven Silicon, April – May 2025

ACTIVITIES & HONOR

- IEEE Student Congress 2025 – Participant at Malnad College of Engineering
- Ideathon Participant – Contributed innovative solutions to real-time engineering challenges
- Represented college at VTU cultural fests and intercollege dance competitions
- Active volunteer in college technical and cultural activities

LANGUAGES

English (Professional) | Kannada (Fluent) | Telugu (Native) | Hindi (Conversational)
